

```
#include <stdio.h>
```

```
int main() {  
    float len;  
    float breadth;  
    float area;  
    printf("Enter the length:");  
    scanf("%f",&len);  
    printf("Enter the breadth:");  
    scanf("%f",&breadth);  
    area=len*breadth;  
    printf("%f",area);  
    return 0;  
}
```
